

CBGC Assignment of Continuing Education Credits (CECs) for recognized educational sessions

Below are listed the assigned CECs for various meetings since the first CAGC certification exam. These are **Recognized Educational Sessions**. This list includes meetings where the organizer has applied directly to the CBGC (and previously the CAGC) for CEC assignment for all attendees.

Candidates using these meetings for CECs will require an official receipt of payment of the conference fee, attendance certificate, **OR** certificate of accumulation of CEUs as required by the ABGC in the event of an audit. Please see the [Recertification Protocol](#) on the CBGC website for additional information regarding recertification.

Unrecognized educational sessions are not listed here. Applications for unrecognized educational sessions need to be submitted to the Certification Board within 12 months following the end of the conference or online course. Unrecognized education sessions are then approved for each applicant separately, and not for all conference attendees.

If there are any questions regarding the CEC assignment, please contact Jocelyn Carter-Sim by e-mail (cec@cbgc-ccc.ca).

Please note the CECs assigned for upcoming meetings may be altered should there be changes in the final conference program.
